My Ice

Profile

does not need coding/styling

can be one large image or text

form fields max-width 350-ish

spacer is actually a bg gradient (B3B3B4→CECFD1. feel free to use #D0D2D3 for now

Roboto Medium 12,14

these are not images, rather text. do the best you can to center horizontally and vertically

this is not a rollover state, rather a selected state.

possible to do both dotted line and "OR" as text? if not, an image is fine.

again, not images, rather text. do the best you can to center horizontally and vertically

this is not a rollover state, rather a selected state.

large checkboxes possible? I found a codepen to do these, but can not make them work.

buttons min-width 200px, max-width 250px

does not need coding/styling
